- Awards

Cognitive Content Dictionary or Picture Dictionary

- Involves students in metacognition
- Builds vocabulary
- Aids in comprehension
- Picture dictionary generally for younger students

Step-by-Step

1. Teacher selects word from unit vocabulary
(This word becomes the signal word for the day/week)
2. Later students select word by voting
3. Students predict meaning of selected word
4. Write or sketch something that will help them remember the meaning.
5. Use the word in a sentence.
6. This activity is done whole class, in teams and individually

Cognitive Content Dictionary (CCD)

Exploration Report

- Provides students with the opportunity for increased team building
 - Consensus of team
 - Provides opportunity to negotiate for meaning
- A type of inquiry chart
- Gives indication of background knowledge
- Basis for scaffolding vocabulary and meaning of information for unit

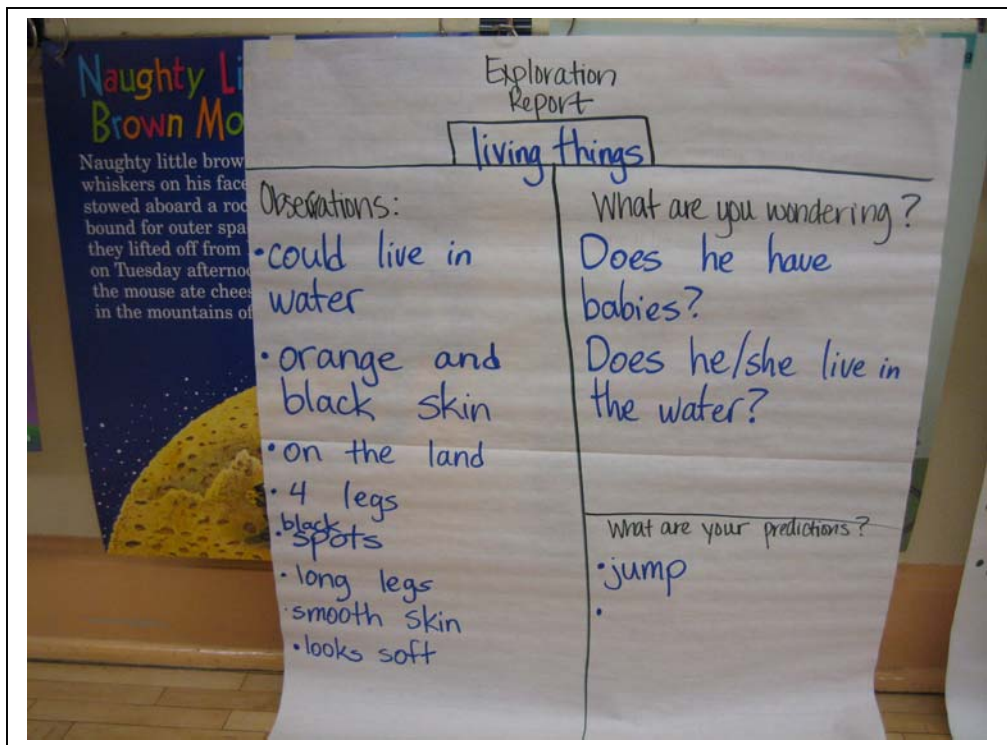

Step-by-Step

1. Use real photos, in color, if possible
2. Choose high interest photos
3. Use the Exploration report as the first team activity as an introduction to the unit
4. Select 2-3 photos for each team
5. Each team will then decide on one photo to report on
6. Each team must then decide on an observation, a question and a prediction that they will report to the class

7. The teacher will then ask each team for their observation, recording the observation in the color that represents each team.
8. The teacher will then record each teams question in the representing colors
9. The teacher will then record each team's prediction in the corresponding colors.
10. The teacher uses the report to determine background knowledge.
11. The teacher can revisit the report as the unit progresses and information is learned.

Exploration Report

7

Observation Charts

- A type of inquiry chart
- Stimulate students' curiosity
- Build background information while providing the teacher with a diagnostic tool
- Provide opportunity for language support from peers

Step-by-Step

1. Use real photos, in color, if possible.
2. National Geographic magazines and the internet are good resources.
3. Attach plain white paper.
4. Have students work in pairs or teams to discuss the pictures. Only one pencil per group is allowed. They may write:
 - an observation
 - a question
 - a comment

5. Teacher uses the chart to assess background knowledge and students' interests.
6. Revisit the charts to monitor growth.

Observation Charts

10

Teacher-Made Big Books

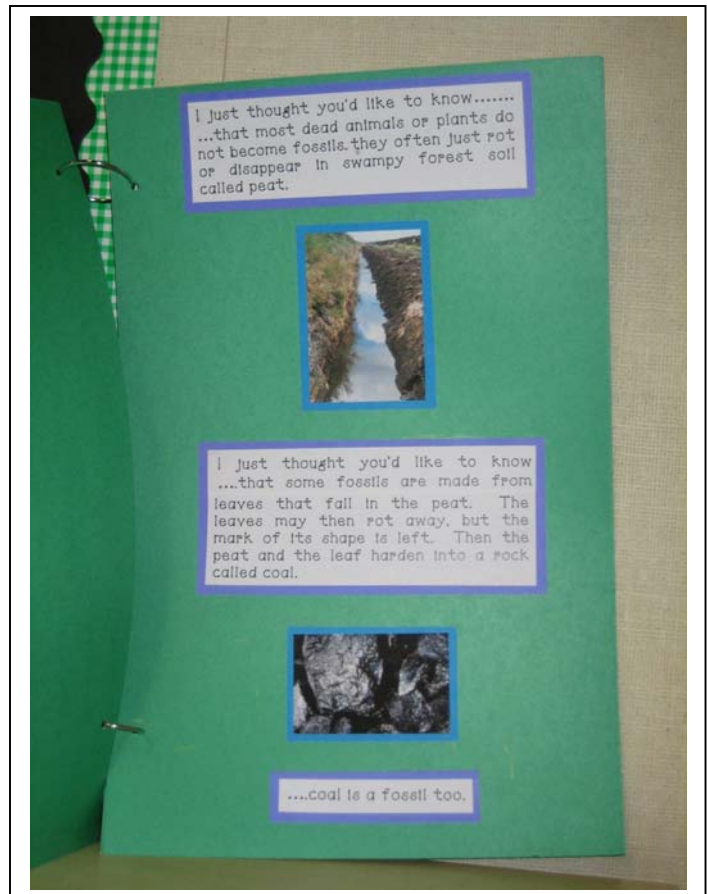

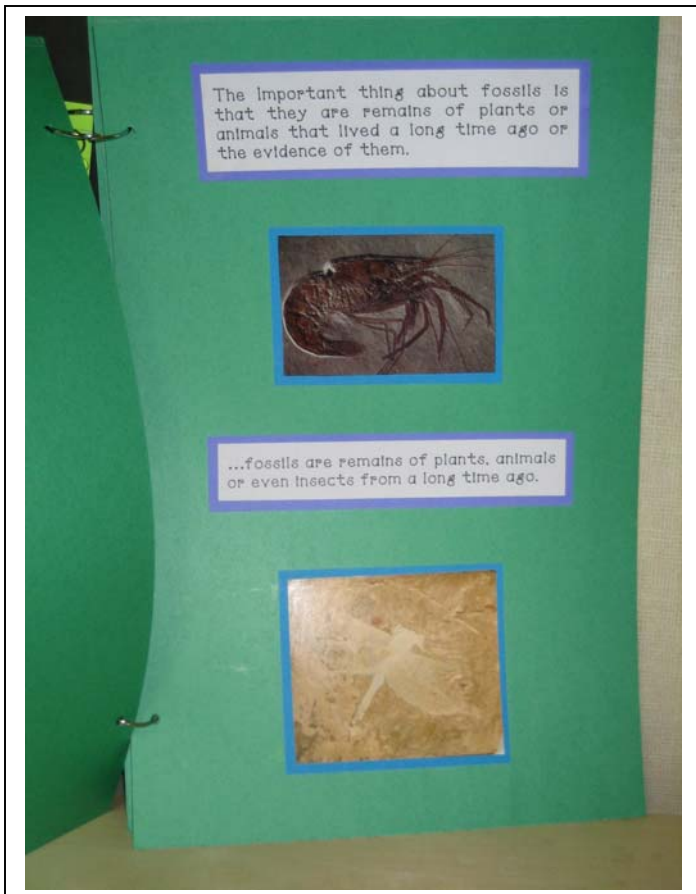

- Directly focus on content standards of the unit
- Imbed important concepts and vocabulary
- Expose students to comprehensible expository text
- Patterned text gives access to all students

Step-by-Step

1. Choose key concepts and vocabulary.
2. Choose a frame or pattern.

- *The Important Book*
- *I Just Thought You Would Like to Know*
- *Brown Bear, Brown Bear*
- *When I Was Young*
- *I Remember When*

3. Use real pictures and photos.

Inquiry Charts

- From the inquiry method approach to science
- Think, predict, hypothesize
- Assess and activate background knowledge
- Address misconceptions
- Teach revision and learning as a continuous process
- Model reading and writing
- Think KWL

Step-by-Step

1. Record students' comments using their words.
2. Record students' names after their comments. (primary)
3. Revisit the inquiry chart often.
4. Use a different color marker each time you revisit.
5. When revisiting, ask students to cite the source of their new information.

Inquiry Charts

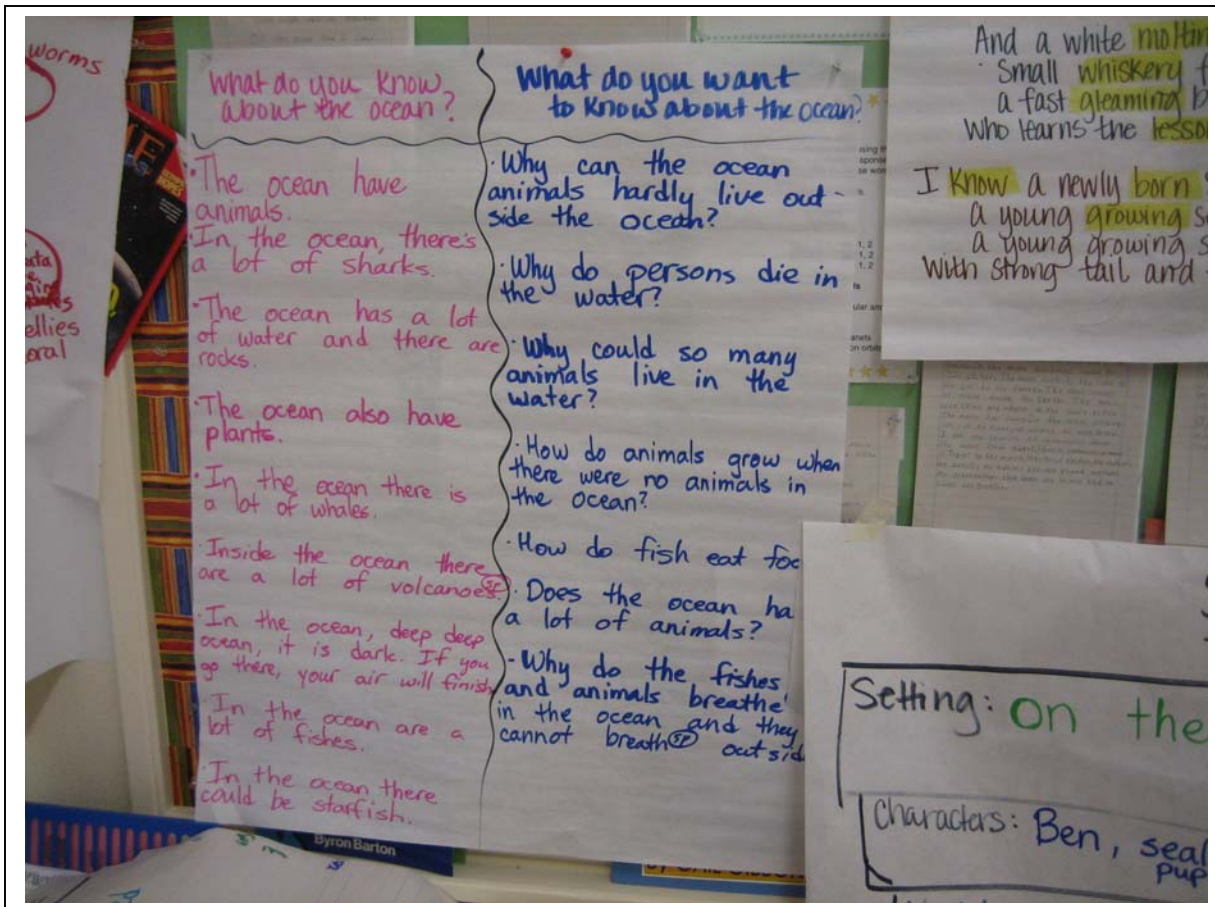

What I Know About Government

- The government work ^{people of the} for the United States.
- The government ^{helps make new} rules America. ^{from} Legislative Branch.
- The government has a lot of money. ^{we} (T) pay Tax.
- The government helps people. ^{think} (T)
- The President is in the White House for four years. ^{He can be} elected for a second Term. ^{Mike Adams} Total 8 years.
- The President lives in the White House. (T)
- The President is rich. (T)
- The President gets money from the government to build schools. From the people.

What I want to Know About Government

- they built the White House? ⁱⁿ 1800, John Adams 1st President to live in the White House.
- How much money does the President get from the government? ^{...}
- How did ^{does} the government get all the money? ^{from} From the people that pay Taxes.
- How does it look inside of the White House? ^{...}
- How many people live in the White House? ^{...}
- How does the government help the people? ^{ways} By having fair laws, schools, low income houses, homeless.
- How did the President get rich? ^{...}
- What does someone do to become a President? ^{Born in the USA} 35 years old.
- Why do they call it the White House? ^{...} When it was burned it was painted white.

Inquiry Charts

Super Scientist Awards

Historian Awards

- Behavioral management tool
- Connected to the standards
- Individual personal standards
 - Make good decisions
 - Show respect
 - Solve problems

Step-by-Step

1. Use real pictures/photos related to the unit.
2. Label the pictures with unit vocabulary.
3. Teacher specifies what the student did to earn the award.
4. Enlist the help of student monitors to give awards. Students verbalize the reason for earning awards.

Historian Awards

Martin Luther King, Jr.

1929-1968

"I have a dream today...

*that one day... little
black boys and black
girls will be able to join
hands with little white
boys and white girls as
sisters and brothers.*

I have a dream today."

*"I have a dream that my four little
children will one day live in a nation
where they will not be judged by the
color of their skin but by the
content of their character."*

Section II

Input Strategies

- Pictorial Input
- Comparative Input
- Narrative Input

Pictorial Input Chart

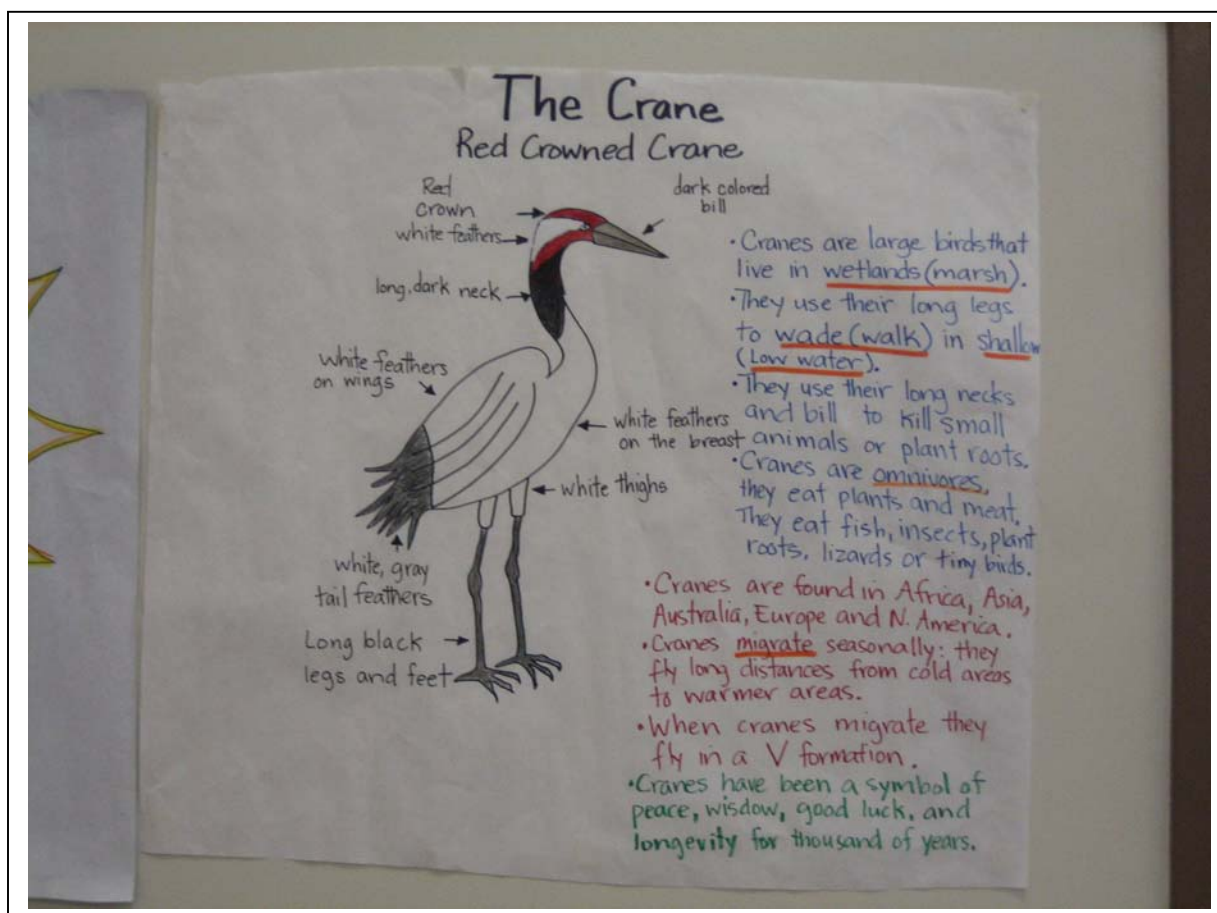

- Make vocabulary and concepts comprehensible
- Drawn in front of the students for brain imprinting
- Organizes information
- Becomes a resource for students

Step-by-Step

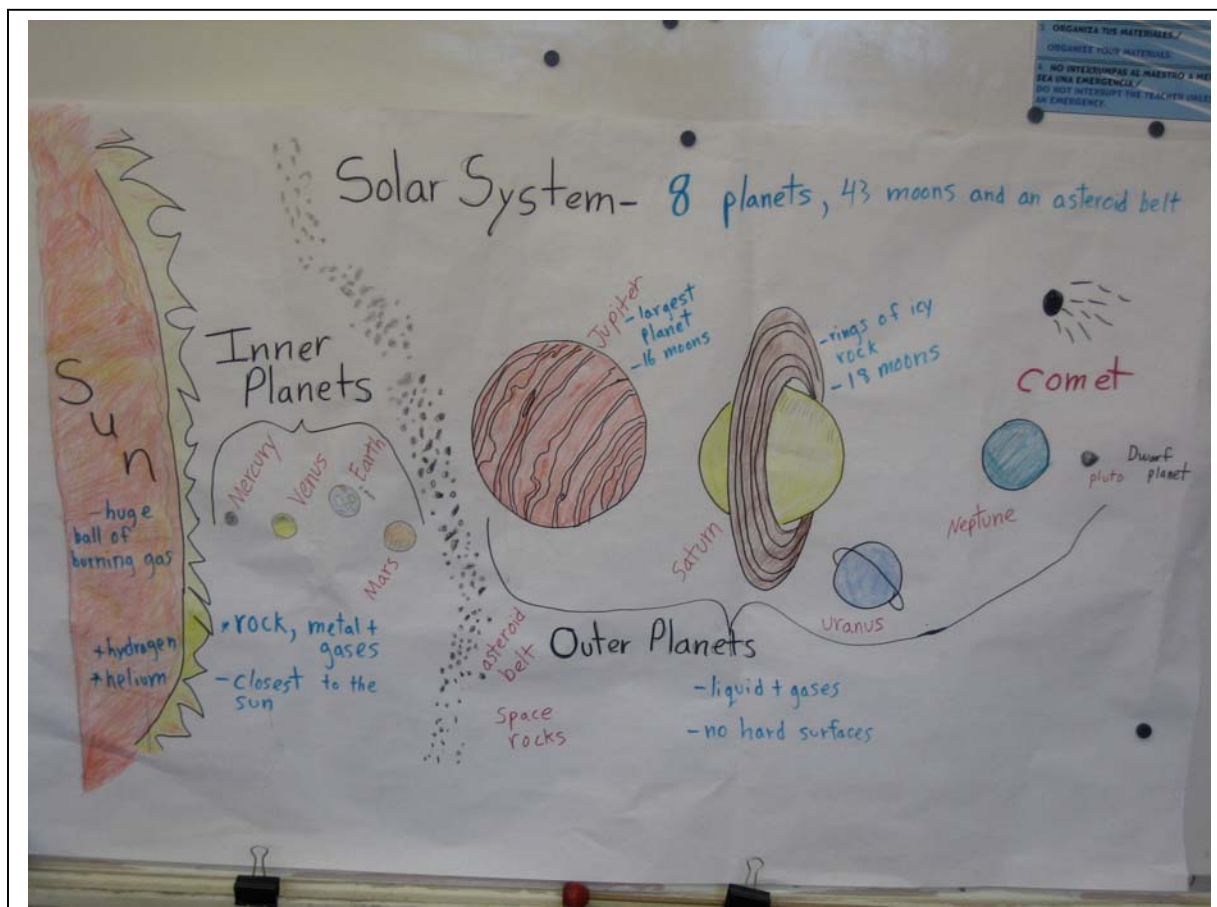

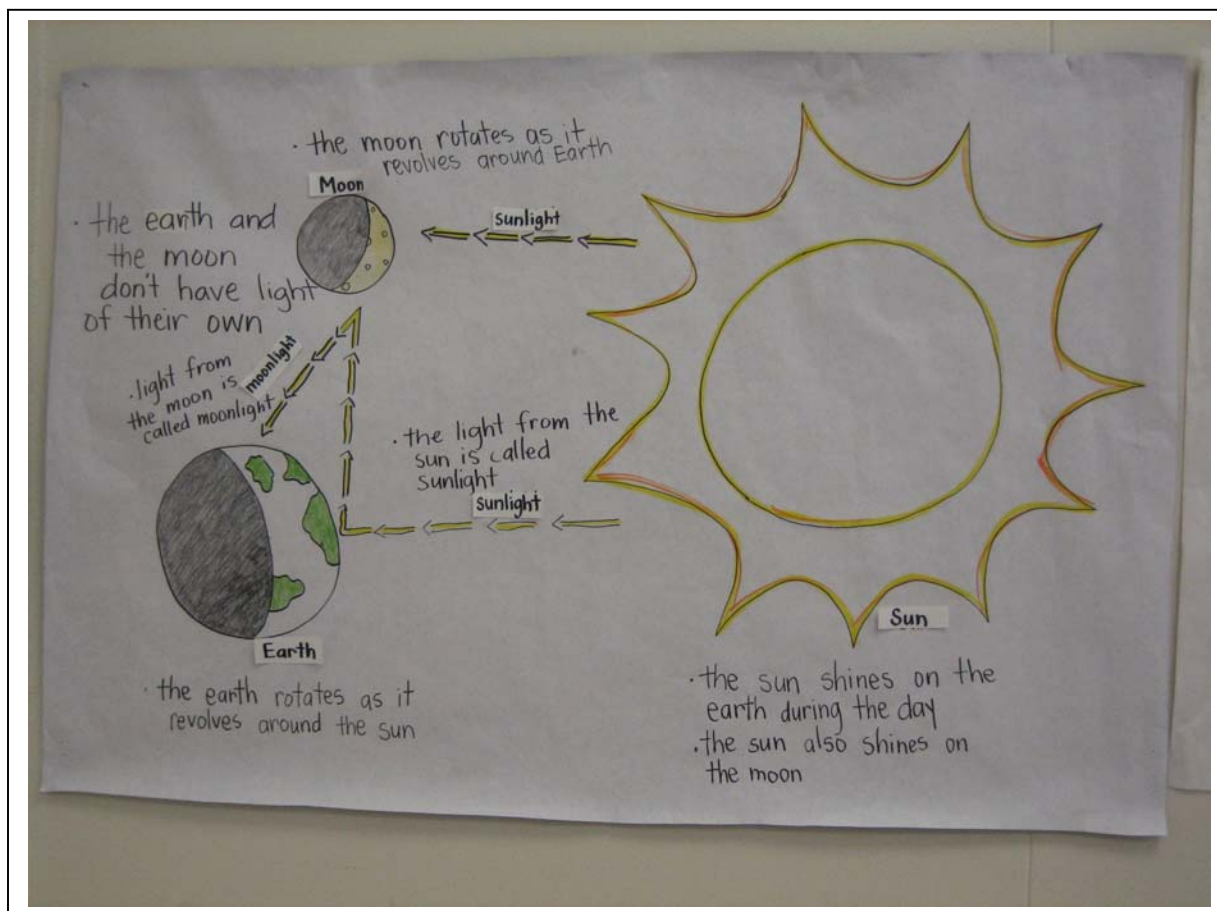

1. Use to illustrate unit vocabulary and concepts.
2. Resources for pictorials include: textbooks, expository children's books (Eyewitness Explorers series) websites (www.enchantedlearning.com), teacher resource books.
3. Use an opaque, overhead, or document camera to enlarge the picture and trace on butcher paper in light pencil, including vocabulary words and notes.

4. With students present, trace over the pictorial with markers, providing verbal input as you go. Chunk your information in different colors.
5. Revisit to add word cards and review information.
6. Creates LANGUAGE FUNCTIONAL ENVIRONMENT.
7. Allow students to color pictorials.
8. At the end of the unit, make a master to use next year, and then raffle the pictorials

Pictorial Input Charts

Pictorial Input Charts

Comparative Input Chart

- A variation of the pictorial
- Compares and contrasts two objects, animals, or people
- A pictorial form of a Venn diagram
- Information can be comprehensibly presented with the comparative, taken to a Venn diagram, and finally to writing

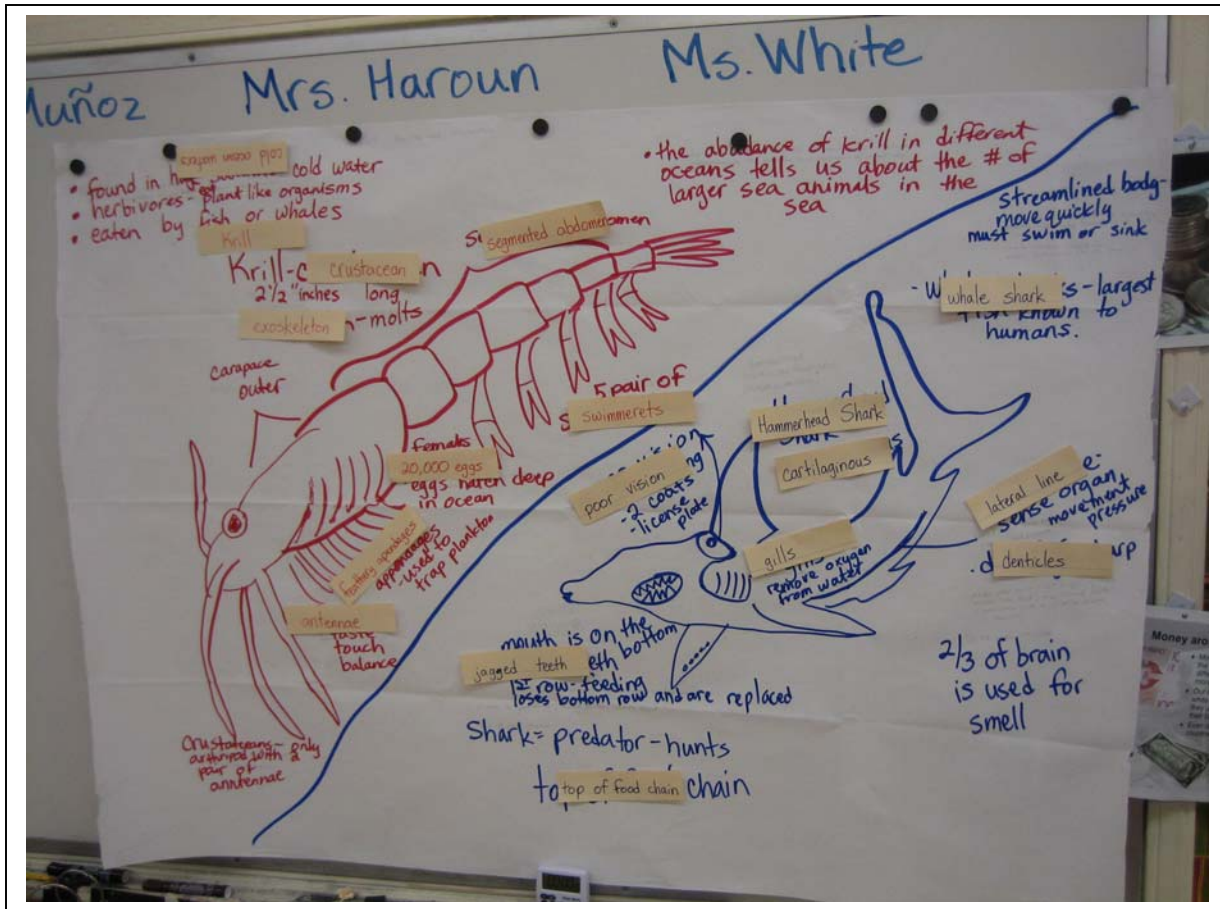

Step-by-Step

1. Follow the same procedure as the pictorial, but choose two objects, animals, or characters that lend themselves to compare/contrast.
2. Revisit the comparative to add word cards and review information.
3. Consider extending the comparative by recording the key points and vocabulary on a Venn diagram.

4. Use the comparative and/or Venn diagram as the graphic organizer for a compare/contrast piece of writing.

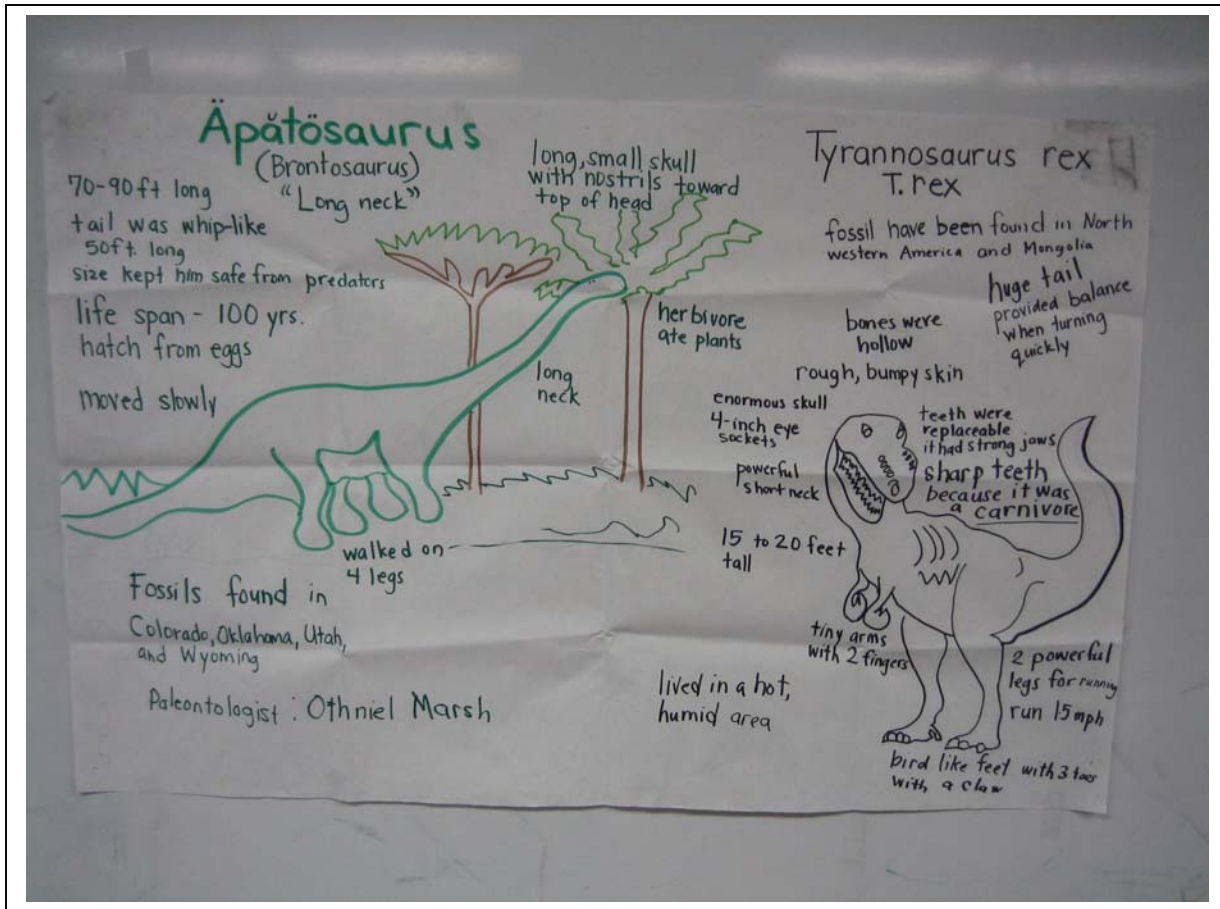

Comparative Input Chart

27

Comparative Input Charts

28

Narrative Input Chart

- High level, academic language and concepts are used but put into a story or narrative format
- The story format allows for increased comprehension of academic concepts
- Provides a visual retelling of the story

Step-by-Step

1. Choose concepts and vocabulary that you would like to present via narrative input
2. Consider adapting a story that already exists by imbedding standards-based concepts and vocabulary
3. Draw or copy pictures for narrative and attach the text to the back
4. Laminate the pictures for retelling
5. Create a background for the narrative that may be as simple as a laminated piece of butcher paper

6. Gather the students close to you and tell the story as you place the pictures on the background
7. Revisit the narrative to add word cards and/or speech bubbles

31

Narrative Input Charts

32

Section III

Guided Oral Practice Strategies

- 10/2
- T Graph for Social Skills
- Chants
- Sentence Pattern Chart

10:2

- Backed by brain research
- Presented by Art Costa
- Reinforced by Long, Swain, and Cummins, who state that it is important to allow at least 2 minutes of student processing for every 10 minutes of teacher input
- Negotiating for meaning
- Low-risk environment to try new vocabulary and concepts

Step-by-Step

1. Teach students turn and face a partner whenever you indicate it is time for a 10:2.
2. Teach students to take turns answering the question you provide.
3. Teach students the quiet signal, such as hand in the air, you will use to indicate when it is time to face you again.

4. Use 10:2s whenever you are providing input (big books, pictorials, narratives) or for soliciting information from children (sentence patterning, process grid, editing co-op)

T-Graph for Social Skills

- Students identify good behavior
- They verbalize and internalize appropriate behavior
- More meaningful to the students than teacher-imposed rules
- Sets standards for cooperative groups and develops social skills
- All statements are in positive terms

Step-by-Step

1. Focus on different social skill for each unit (respect, cooperation, responsibility)
2. Brainstorm the meaning of the word with children and record on the web
3. Brainstorm what behaviors you would see, and what specific words you would hear if a person were behaving in that way

4. Revisit the t-graph often with students to add behaviors that have been observed

T- Graph for Social Skills

39

Cooperation

- work together
- doing the work you're supposed to do
- paying attention to students in the team
- show respect
- making good decisions
- solve problems
- do work well

"Can I borrow your pencil please?"

"Can you help me?"

"Can we help each other?"

"May I help you?"

"You do this and I do that."

"What do you have?"

"Well that's okay."

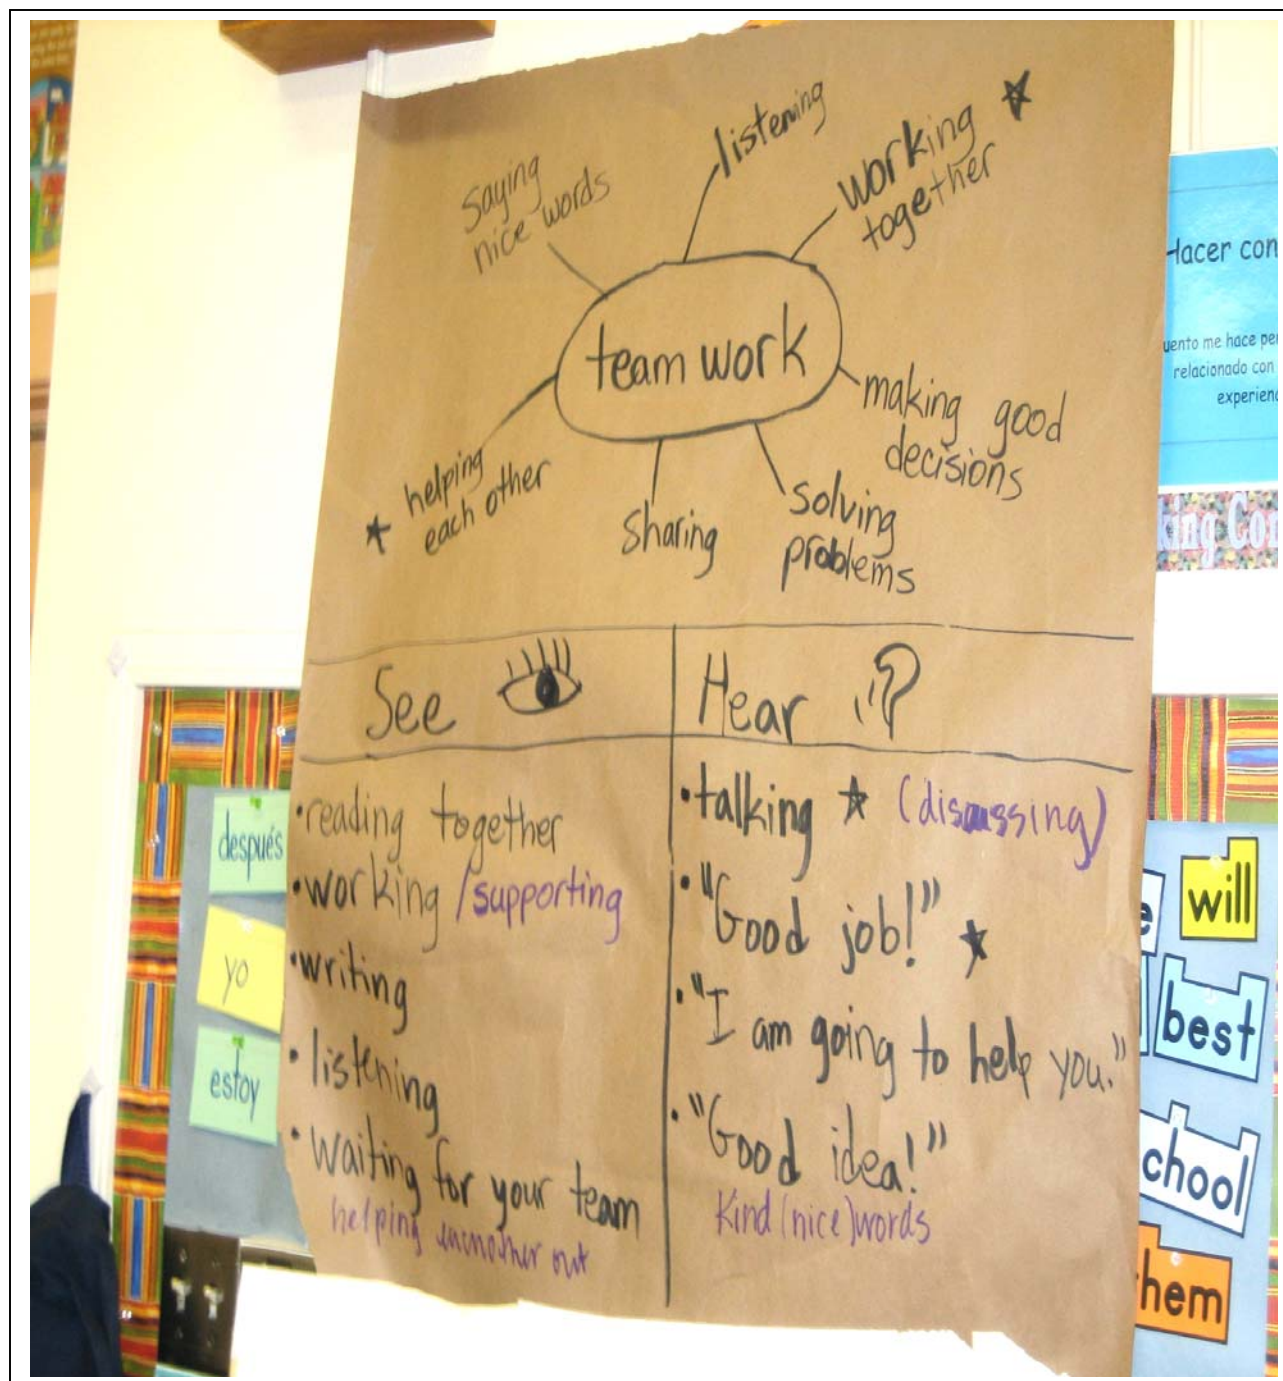

"May I have....?"

"We left you some work."

"do you want me to do some work?"

"I think we can do it."

T- Graph for Social Skills

Chants

- Imbed key concepts and vocabulary
- Auditory and visual language patterning
- Vocabulary building
- Students gain familiarity and comfort using academic language in a low-pressure way
- Chants are revisited often for a variety of purposes

Step-by-Step

1. Choose key vocabulary and concepts to imbed in chants.
2. Choose a frame or existing song to adapt (Bugaloo; Yes Ma'am; Cadence; Here, There, Everywhere; I Know a ...).
3. When chanting with the students, start by chanting for the rhythm and language patterns first, focus on concepts and vocabulary later.

4. Revisit the chants often for different purposes, including highlighting scientific, historic or interesting words.

Chants

43

Is this a flower? Yes, ma'am.
 Is this a flower? Yes ma'am.
 Well, how do you know? It has petals.
 Well how do you know? It has a stem.
 Give me some examples. Tulip and petunia.
 Give me some examples. Poppy and Iris.
 Is this a flower? Yes ma'am.
 Is this a flower? Yes ma'am.
 What does it need? A little bit of water.
 What does it need? A little bit of sunshine.
 Will you take care of it? Yes ma'am.
 Will you take care of it? Yes ma'am.

I Know a Seal Pup

I know a newly born seal pup,
 a young growing seal pup,
 a young growing seal pup,
 With a strong tail and flippers.

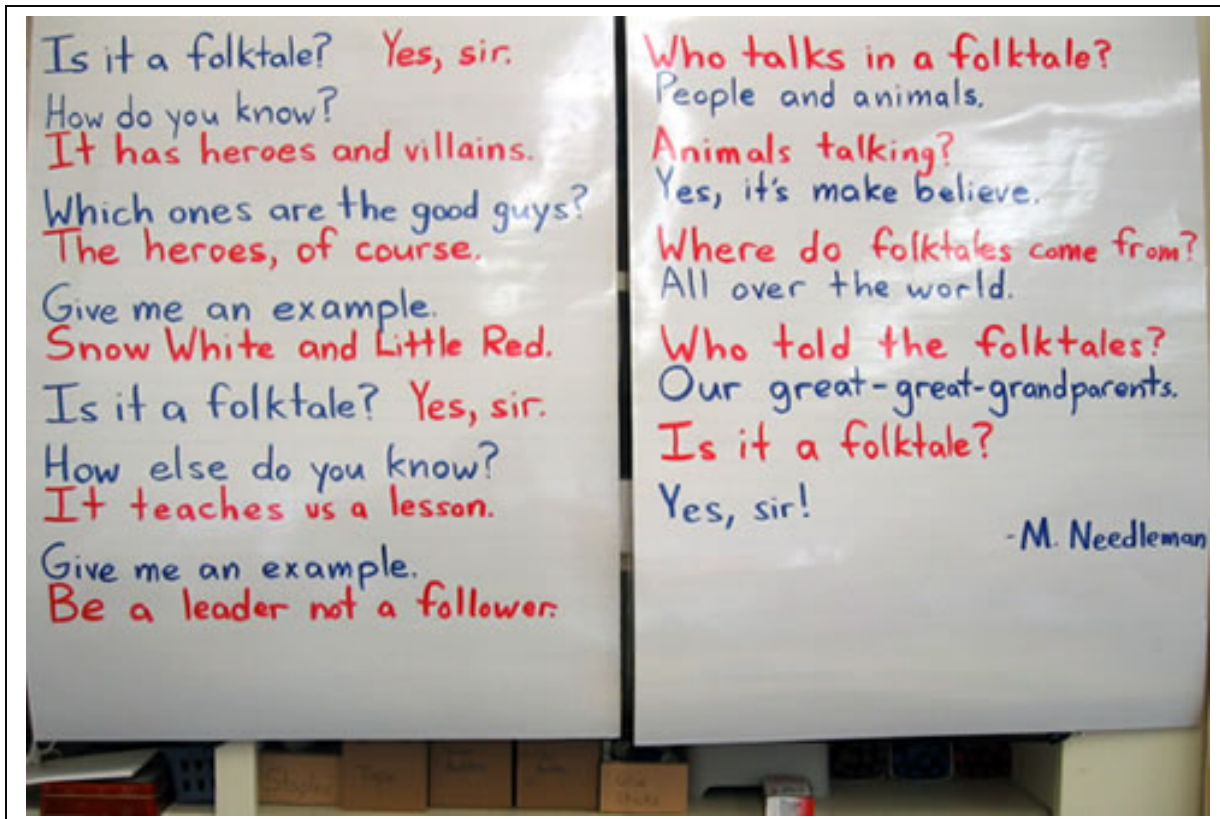

And a white molting coat,
 Small whiskery face,
 a fast gleaming body,
 Who learns the lessons of the sea.

I know a newly born seal pup,
 a young growing seal pup,
 a young growing seal pup,
 With strong tail and flippers.

Chants

44

Sentence Patterning Chart

- Adapted from the McCrackens
- Skill building
- Patterning
- Parts of speech
- Resource for writing

Step-by-Step

1. Choose a key plural noun from the unit (a noun that is capable of producing action is best)
2. Color code the headings (Adjectives-red, Nouns-black, Verbs-green, Adverbs-blue, Prepositional phrases-orange)
3. Create and label the grid in front of the students
4. Use 10:2s to brainstorm words for each section
5. Refer students to resources in the room, such as pictorials, when necessary

6. Choose 2 adjectives for (upper) or 3 adjectives (primary) and one word from each of the other categories, by placing a small post-it note by each
7. Have students help you chant to the tune of "The Farmer-in-the Dell"
8. Allow students to choose words by placing post-it notes on the charts for subsequent chants

Sentence Patterning Chart ("Farmer in the Dell")

47

Adjective (Describing word)	Noun (person, place or thing)	Verb (action word)	Prepositional Phrase (where:)
happy nice big small smart intelligent awesome	friends	play sing read dance share	at the park around the playground at school near the beach in the classroom under the tree

Synonym

Awesome friends play near the beach

pink playful dirty round curly soft stinky white fat		eats runs Sleeps plays swings walks rolls sinks	on the barn around the barn in the mud around the farm behind the rooster beside the bed behind the barn under the hay

Sentence Patterning Chart ("Farmer in the Dell")

49

Adjectives	nouns	verb	Prepositional phrase
soft white hairy heavy fat black brown	bunnies bunny 	eat drink jump run sleep	beside the barn around the barn in the barn outside the barn behind the house

Adjective <small>describes</small>	Noun <small>person, place, thing</small>	Verb <small>action</small>	Prepositional Phrase <small>where, how</small>
different big small cute soft ugly mad happy sad shy hungry	sea animals	swim scare hit eat kill jump fight cry play chase bite	in the water in the sun in the sea under the water in the dark with their mouth on the beach around an island at the zoo in the aquarium

Section IV

Reading and Writing Strategies

- Cooperative Strip Paragraph
- Team Tasks
- Process Grid
- Expert Groups
- Story Maps

Co-op Strip Paragraphs and Group Frames

- Aid in reading and writing expository text
- Model the process of editing and revising
- Completed work becomes leveled reading related to the unit of study
- Co-op Paragraph is an adaptation of Nancy Whitsler's model
- Group Frame is for younger students or emergent writers who need to use dictation

Step-by-Step

1. Create a topic sentence based on the process grid.
2. Each team is responsible for formulating one supporting sentence.
3. Team works to formulate sentence.

4. After confirming the sentence has not already been used, the teacher either *a)* writes the sentence on a sentence strip for the group (group frame) or *b)* provides the team with a sentence strip to record their sentence (co-op paragraph).
5. Teams place their sentence strips in the pocket chart under the topic sentence.
6. With students watching, the teacher tears extra space off of the sentence strips and arranges the strips to look like a paragraph.
7. The class reads through the paragraph and the teacher solicits possible revisions (changing the order of the sentences, combining sentences, etc.).
8. The class reads through the paragraph and the teacher solicits ideas for editing (spelling, grammar, punctuation)
9. This can be used with emergent readers to create game to build reading skills. The final version is typed and used for reading material.

Cooperative Paragraph

Coop Strip Paragraph

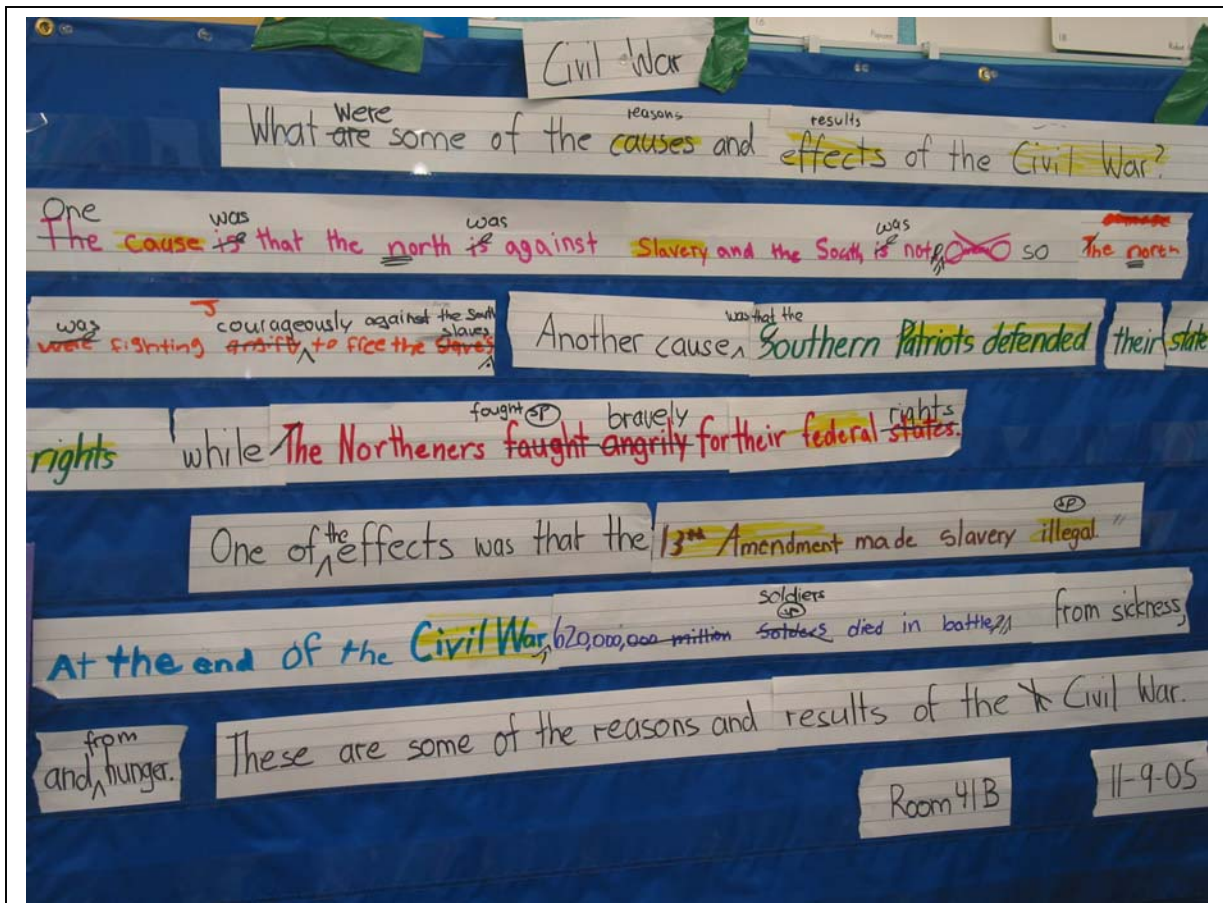

The Orca and the Great White Shark are different in many ways. Orcas belong to the mammal family, whereas the sharks are fish ~~family~~ ^{group}. Rough skin with denticles and taste pits are found on sharks, while orcas have smooth sleek skin. ~~The enormous killer whales~~ Orcas hunt in pods, whereas sharks are solitary predators. Orcas are torpedo-shaped, while sharks have a sleeker shape. The shark uses ^{its} sense of smell to find prey, while the orca uses echolocation. The differences between the orca and the GWS make it easy to tell them apart.

Angie, Adrienne, John, and Erik
November 11, 2003
The Orca and Great White Shark

The Orca and the Great White Shark are different in many ways. One belongs to the fish family whereas the other is part of the dolphin family a "mammal". The Orca has a fluke tail that moves up and down where as the shark has a caudal tail that moves from side to side. The Orca has a blowhole to breathe air however the shark uses gill slits to breathe oxygen from the water. The killer whale has a very tall dorsal fin on the other hand the Great White Shark has a smaller dorsal fin. The Killer Whale has a false eye spot to fool their prey, but the Great White Shark closes its eye. It when it eats its prey. The Killer Whale has smooth, rubbery skin however the Great White Shark has rough skin. It even has denticles on its body. Both sea animals are different in many ways, although they are the ocean's top predators.

Cooperative Sentence

54

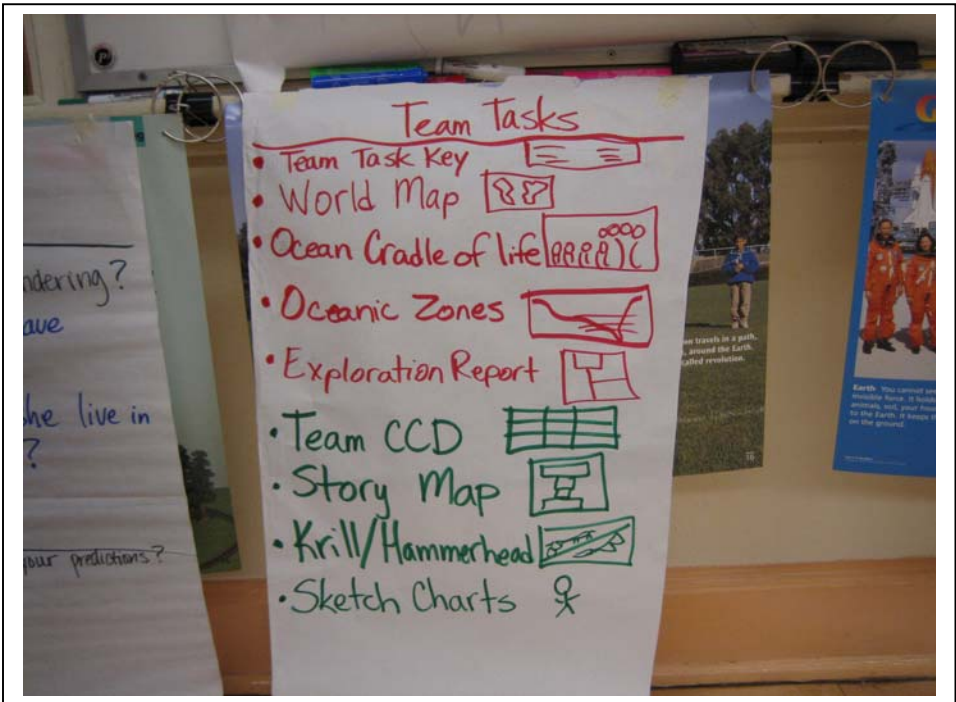

Team Tasks

- Used in place of centers
- Allow teacher to pull flexible groups
- Use modeled strategies
- Provide scaffolding:
 - Teacher models
 - Team task
 - Individual work

Step-by-Step

1. Choose strategies that have been modeled and revisited at least once for team tasks
2. Assign about 3 tasks at first, and add tasks throughout the unit
3. Teams work together to complete tasks using large construction paper

Team Tasks

Process Grid

- Based on Sharon Bassano's wall grid
- Categorize information
- Aid in writing expository text
- Teach reading for information

Step-by-Step

1. Categorize the important concepts from the standards-based unit
2. Provide the students with input of concepts and vocabulary through expert groups, narratives, pictorials, etc.
3. Choose students randomly to provide information to be entered on process grid (number off, roll dice, etc.)
4. Process grids aid in writing expository text

Process Grids

Expert Groups

- Demonstrate features of non-fiction text
- Teach reading for information
- Promote comprehension and communication of key concepts

Step-by-Step

1. Create expert group text for a category on the process grid.
2. Include features of expository text such as bold print and subheadings
3. Expert groups are composed of one student from each team
4. Guide expert groups in reading for information and note-taking
5. Students who are now experts are responsible for teaching the information to their team
6. Expert groups are heterogeneous groups

Story Maps

- Teaches story elements
- Promotes sequencing and comprehension
- Can be used as a story planner during writer's workshop
- Can be used in conjunction with the narrative input

Step-by-Step

1. Choose a story with a clear problem and solution
2. The story map is a great extension to the narrative when possible
3. After students are proficient at filling in story maps, they can use the story map to plan their own stories
